

FoxInsight

Business intelligence and ranking explainability

INTELLIGENCE

PROTOTYPE

Product Overview

Mission

FoxInsight makes ranking and search explainable so operators can see why a result appeared — not only that it did.

What it is

Analytics and decision-support surfaces built on transparent ranking features and real repository metrics.

Core Capabilities

- Explainable ranking components
- Search quality surfaces
- Operator metrics from real data
- Result explanation payloads

Use Cases

- Ranking reviews
- Search tuning sessions
- Portal metric boards

Technology

Architecture

Feature extraction, weighted scoring, explanation objects, and search indexes. Dashboard numbers come from live counts, never invented KPIs.

Security Posture

No fabricated uptime or customer counts. Analytics remain privacy-conscious.

Ecosystem & Roadmap

Declared Relations

- FoxInsight USES foxdata
- FoxInsight USES foxknow
- FoxInsight PROVIDES INTELLIGENCE TO foxai

Open Research Question

Where does explanation fidelity start to cost more than it helps ranking quality?

Roadmap

More feature flags for ranking experiments under FoxLab discipline.

Status: FoxInsight is labelled "prototype" in the FoxHeight Continuum product registry. This label reflects verified implementation state, not a marketing claim. Source: SOURCE_DATA/products/foxinsight.json.
